About this data

▼ [Abbreviations](#)

- LOWCOV = Low coverage: Shown for the 'value added' measure and coverage indicator where schools have less than 50% of pupils included in calculation of the measure
- NA = Not applicable: Figures are either not available for the year in question, or the data field is not applicable to the school or college
- NE = No entries: The school or college did not enter any pupils or students for the qualifications covered by the measure.

For a multi-academy trust, the schools or colleges eligible for inclusion in the trust's performance measures, did not enter any pupils or students for the qualifications covered by the measure

- NEM = No entries: We suppress multi-academy trust (MAT) figures if the MAT has fewer than three schools/colleges with eligible pupils or students in this measure, or where there are 5 or fewer pupils or students covered by the measure.
- NEW = New school or college
- NP = Not published: For example, we do not publish Progress 8 and prior attainment data for independent schools and independent special schools as these school are not required to enter pupils for key stage 2 national curriculum tests and assessments. Breakdowns by disadvantaged and other pupils are also not available for independent schools, independent special schools and non-maintained special schools
- RE = Redacted: We redact these figures if they do not allow the calculation of a reliable estimate and therefore don't provide a fair measure of performance. For transparency, we publish the headline information for these providers separately in the national achievement rates tables.
- SN = Small number: The number is subject to rounding and is less than 3
- SP = Small percentage: The percentage is subject to rounding and is between 0% and 0.5%
- SUPP = Suppressed: In certain circumstances we will suppress an establishment's data. This is usually when there are 5 or fewer pupils or students covered by the measure. We avoid making these figures public to protect individual privacy. We may also suppress data on a case-by-case basis.

For a multi-academy trust, we will suppress data when there are 5 or fewer pupils or students, covered by the measure, in total across the establishments eligible for inclusion in the trusts performance measures.

- SUPPM = Suppressed: We suppress multi-academy trust (MAT) figures if the MAT has fewer than three schools/colleges with eligible pupils or students in this measure, or where there are 5 or fewer pupils or students covered by the measure.
- -- = Null: Figures are either not available for the year in question, or the data field is not applicable to the school or college.
- NELIG = Not Eligible: The school, college or multi-academy trust (MAT) was not eligible for inclusion in MAT performance measures in accordance with the rules* on MAT eligibility.

- SUPPMAT = Suppressed MAT: In addition to suppression outlined in SUPP. A multi-academy trust will additionally have its data suppressed for a particular measure if exactly one of the establishments, eligible for inclusion in the trusts performance measures, has its data suppressed. This is to avoid multi-academy trust data inadvertently undoing suppression applied to an establishment.
